CONDIZIONI GENERALI DI VENDITA

1. CONDIZIONI DI VENDITA – Il presente listino e le condizioni di vendita sostituiscono tutti i precedenti, si applicano al rapporto di compravendita tra Scab Giardino S.p.A. (di seguito Scab) e il soggetto Acquirente (di seguito Acquirente) o Rivenditore e si intendono accettate da questi ultimi in caso di trasmissione, anche solo verbale, dell'ordine o di ricezione della merce.

2. CATALOGHI E PREZZO – I dati tecnici e le fotografie contenuti nel presente documento sono indicativi. Scab si riserva il diritto di eliminare o modificare in qualsiasi momento articoli, fantasie, imballi, linee e caratteristiche dei prodotti, senza alcun preavviso, anche durante la vigenza del catalogo e del listino.

3. ORDINI – La vendita sarà da considerarsi conclusa solo in caso di accettazione scritta da parte di Scab o di effettiva spedizione della merce. In caso di richieste particolari, anche relative agli imballaggi, Scab in sede di conferma d'ordine potrà chiedere maggiorazioni di prezzo e di variare le condizioni di vendita e di pagamento. Il numero di pezzi contenuti nell'imballo, indicato a fianco di ciascun modello nel listino, è tassativo. L'Acquirente quindi accetta espressamente che gli ordini, quando effettuati per una quantità dispari per un prodotto imballato in quantità pari, vengano automaticamente adeguati alla quantità o al multiplo pari subito successivo.

4. PREZZI – I prezzi si intendono IVA esclusa. Scab si riserva il diritto di modificare il listino ed eventuali offerte in qualsiasi momento e senza necessità di preavviso.

5. PAGAMENTO DEL PREZZO – Il pagamento del prezzo deve avvenire al domicilio di Scab. Ai sensi degli articoli 1523 e seguenti del Codice Civile, l'Acquirente diverrà proprietario della merce acquistata solo dopo l'integrale pagamento del prezzo. In caso di mancato o ritardato pagamento in tutto o in parte del prezzo o di mancato incasso di eventuali titoli di pagamento, l'Acquirente decadrà dal beneficio del termine, ai sensi dell'art. 1186 c.c., anche con riferimento ad altri ordini/acquisti del medesimo Acquirente, e Scab potrà scegliere se chiedere il pagamento integrale del prezzo ancora dovuto, maggiorato degli interessi di mora ex art. 5 D.Lgs. 231/2002, ovvero se avvalersi della clausola di riserva di proprietà, chiedendo la restituzione della merce; in tale ultimo caso l'eventuale porzione di prezzo già pagata resterà acquisita a Scab a titolo di indennità. La parte Acquirente non potrà opporre eccezioni al fine di evitare o ritardare il pagamento del prezzo. Scab ha il diritto di sospendere le consegne delle merci in caso di inadempimento, anche parziale, da parte dell'Acquirente, senza che ciò possa far sorgere alcuna pretesa di risarcimento danni da parte dell'Acquirente.

6. TRASPORTO E CONSEGNA – La merce è venduta franco fabbrica e viaggia a rischio e pericolo dell'Acquirente, anche in caso di trasporto effettuato in porto franco. I termini di consegna hanno valore meramente indicativo e non garantiscono il pieno rispetto dei tempi previsti. Scab è in ogni caso esonerata da ogni responsabilità in caso di impossibilità ad effettuare le forniture nei tempi previsti o in caso di ritardi sui tempi di consegna dovuti a caso fortuito o forza maggiore. Scab è sollevata da ogni responsabilità per mancata e/o errata comunicazione di dati da parte dell'Acquirente. La merce dev'essere controllata dall'Acquirente al momento della consegna. Eventuali reclami relativi a stato dell'imballo, quantità, numero, caratteristiche esteriori del prodotto o ad altri vizi dovranno essere rilevati alla consegna della merce e denunciati a Scab con lettera raccomandata A/R entro 8 giorni dal ricevimento della merce; con la denuncia dovranno essere prodotte immagini fotografiche comprovanti i vizi contestati. Eventuali reclami relativi a vizi non individuabili mediante un diligente controllo al momento del ricevimento dovranno essere denunciati a Scab con raccomandata A/R entro 8 giorni dalla scoperta e comunque non oltre 12 mesi dalla consegna. È onere dell'Acquirente verificare l'integrità dei prodotti prima di trasferirli a terzi; a seguito del trasferimento nessun reclamo può essere presentato a Scab. L'eventuale responsabilità di Scab per vizi o difetti di produzione è limitata al prezzo del prodotto con esclusione dei costi di trasporto e di ogni ulteriore danno. La garanzia non opera in caso di difetti causati al prodotto da scorretto montaggio, da uso improprio o non conforme alla normale destinazione d'uso del bene, dalla mancata osservanza delle istruzioni d'uso o manutenzione, dall'ordinaria usura.

7. RESI – Non sono ammessi resi di merce, salvo consenso scritto di Scab; in nessun caso si accettano resi di merce non difettosa oppure utilizzata o manipolata o alterata dall'Acquirente. Lo stato di conservazione delle merci sarà da Scab attentamente verificato al rientro delle stesse e, in caso di danni non ascrivibili a Scab, non verrà riconosciuto il valore dei singoli pezzi. I costi per il reso della merce e per la spedizione dei prodotti inviati in sostituzione di quelli difettosi sono a carico dell'Acquirente.

8. VENDITE ON LINE – I Rivenditori potranno vendere i prodotti tramite internet in conformità agli obblighi di seguito indicati, fatte salve eventuali altre disposizioni applicabili concordate per iscritto con Scab. Per divenire membri del sistema di distribuzione di Scab i Rivenditori dovranno avere uno o più punti vendita o saloni di esposizione "non virtuali". I rivenditori non potranno pertanto operare interamente come punto vendita virtuale. Qualora il sito Web del distributore sia ospitato da una piattaforma di terzi, non potrà essere consentito ai visitatori di accedere al sito Web del rivenditore attraverso un sito con il nome o il logo della piattaforma di terze parti. Il rivenditore potrà utilizzare piattaforme di terze parti, come eBay e Amazon, per distribuire i prodotti Scab, a condizione che non sia consentito ai visitatori di accedere al sito Web del rivenditore attraverso un sito con il nome o il logo della piattaforma di terze parti.

9. CONTROVERSIE – Per ogni controversia relativa all'interpretazione ed all'esecuzione della vendita la giurisdizione esclusiva è quella italiana e competente per territorio in via esclusiva è l'Autorità Giudiziaria del Foro di Brescia, anche quando il pagamento sia convenuto a mezzo tratta o cambiali domiciliate presso l'Acquirente. Nessuno è autorizzato a rappresentare Scab in giudizio senza apposito mandato.

IMPORTANTE: i prodotti Scab sono protetti da brevetti che ne tutelano l'unicità e l'originalità delle tecnologie, delle forme, dei modelli, delle fantasie e dei disegni. Tutti i prodotti Scab sono realizzati in Italia in uno dei 3 stabilimenti Scab e sono soggetti a rigorosi controlli di produzione e qualità.

GUIDA ALLA COMPILAZIONE DEL CODICE DEL PRODOTTO FINITO

È indispensabile specificare i componenti del prodotto nel seguente ordine:
1. Codice modello
2. Eventuale finitura telaio
3. Sigla tessuto o colore scocca (a seconda del modello scelto)
4. Finitura tessuto

Il numero dei pezzi contenuti nell'imballo è indicato nel listino a fianco di ciascun modello. Eventuali ordini effettuati per quantità diverse verranno automaticamente modificati adeguando la quantità al multiplo subito successivo.

Made with Makrolon®

Tutti i prodotti SCAB in policarbonato sono realizzati con Makrolon® di Covestro - formerly Bayer MaterialScience. Makrolon By Covestro significa che il prodotto è realizzato esclusivamente con policarbonato Makrolon By Covestro (Bayer), il miglior tecnopolimero della sua categoria esistente.

CATAS

CATAS MEMBER

ARTICOLO CERTIFICATO DALL'ENTE CATAS

L'indicazione "CATAS conforme..." significa che il prodotto ha superato con esito positivo tutti i test previsti dalle normative europee vigenti (EN 16139:2013 - ultima in vigore - e EN 15373:2007) per i requisiti strutturali e di resistenza delle sedute per l'utilizzo domestico e non domestico (c.d. "collettività") da parte di persone adulte. Tali prove sono eseguite dai laboratori CATAS (laboratorio di prova accreditato a livello internazionale per la certificazione, ricerca e prove settore arredo).

MATERIALI, USO E MANUTENZIONE

ReCycle

Le qualità di responsabilità e sostenibilità ambientale nella produzione industriale rappresentano una speranza verde per il futuro di tutti noi. Anche nella produzione e nello stampaggio di tecnopolimeri è possibile concorrere al processo di riciclaggio dei materiali e a un metodo di lavorazione che rispetti e mantenga pulito l'ambiente. Tutti i prodotti Scab Design sono realizzati con materiali riciclabili al 100% poiché i singoli componenti che li costituiscono sono rapidamente differenziabili. Ogni elemento plastico riporta il marchio d'identificazione secondo la normativa ISO11469:2001, e fornisce facili indicazioni per il riciclaggio. Tutti i materiali usati da SCAB Design per la sua produzione sono di prima qualità.

LE MATERIE PLASTICHE – SCAB Design utilizza per la sua produzione tecnopolimeri dalle caratteristiche ottimali, quali: robustezza, stabilità, atossicità, inalterabilità agli agenti atmosferici compresi muffe, smog e polvere, resistenza ai raggi UV. Tutti i tecnopolimeri sono integralmente riciclabili nel rispetto dell'ambiente. **Per la pulizia** usare solo sapone liquido neutro diluito in acqua. Pulire con panno morbido umido per evitare graffiature, non utilizzare assolutamente spugnette abrasive. Non impiegare prodotti abrasivi, a base di cloro e solventi in generale quali: alcool, benzina, acetone, trielina, ammoniaca ecc., poiché tali sostanze opacizzano le superfici plastiche.

L'originalità di tutte le sedute Wave e l'esclusività della loro forma derivano dall'applicazione di una tecnologia di stampaggio innovativa e altamente complessa, unica nel suo genere. Eventuali piccole imperfezioni, variazioni di colore o sbavature sono caratteristiche intrinseche del prodotto, ineliminabili, che confermano l'unicità di ogni pezzo.

I METALLI | ACCIAIO – SCAB Design dedica la massima attenzione ai "Newton di resistenza meccanica" ed all'alta qualità degli acciai impiegati nella costruzione del prodotto.

I METALLI | ALLUMINIO – L'alluminio è un metallo che unisce leggerezza e grande robustezza, e la sua superficie viene anodizzata o verniciata con polveri poliestere per una maggiore resistenza alla corrosione. **Per la pulizia** delle superfici metalliche in acciaio o alluminio o verniciate usare solo un panno morbido umido. Non impiegare creme o paste abrasive specifiche per pulire i metalli, non usare solventi. Si raccomanda di non utilizzare assolutamente per la pulizia spugnette abrasive o pagliette metalliche.

I LEGNI – Gli arredi SCAB Design con scocca e/o telaio in legno sono prodotti conformemente alle vigenti normative europee nel rispetto dell'ambiente. **Per la pulizia** usare solo un panno morbido inumidito con acqua tiepida ed asciugare immediatamente con un panno morbido asciutto. Non impiegare prodotti abrasivi, aggressivi, a base di cloro o solventi in generale (ammoniaca, candeggina o detergenti contenenti acidi). Assorbire immediatamente con un panno asciutto e pulito eventuali liquidi rovesciati, il legno teme l'umidità. Non esporre a luce diretta. Non esporre a fonti di calore. Il legno è soggetto ad alterazioni di colore se esposto alla luce del sole. Il legno è una materia prima naturale; ciò significa che non è possibile garantire l'omogeneità e l'uniformità propria invece dei materiali sintetici. Anche elementi realizzati dalla stessa pianta possono evidenziare differenze cromatiche. Variazioni di colore o eventuali imperfezioni, dovute alla fibra stessa del legno o alle venature, sono garanzia di qualità del legno massello e ne costituiscono il pregio. Le colorazioni dei nostri legni sono a base acqua per garantire il rispetto dell'ambiente e della salute.

I VETRI – Piani in vetro temperato secondo le normative UNI EN 12150, trasparente, serigrafato o laccato. **Per la pulizia** usare solo detergenti specifici per vetri o sapone liquido neutro diluito in acqua. Pulire con panno morbido umido per evitare graffiature ed asciugare accuratamente per assicurarne la brillantezza. Non impiegare prodotti abrasivi o aggressivi.

I TESSUTI – **Per la pulizia** dei tessuti si raccomanda di consultare la scheda tecnica specifica. Per la pulizia quotidiana non spazzolare ma utilizzare regolarmente l'aspirapolvere, evitando di esercitare pressione sul tessuto. Per le macchie leggere utilizzare una spazzola morbida inumidita, impiegando eventualmente detergenti delicati o aceto bianco diluiti in abbondante acqua.
Non impiegare prodotti abrasivi né detersivi o solventi. Non impiegare generatori di vapore ad alta pressione.

LA SIMILPELLE – **Per la pulizia** quotidiana utilizzare un panno morbido inumidito con acqua. Per lo sporco più ostinato utilizzare una spugna morbida con acqua e sapone. Non impiegare prodotti abrasivi né detersivi o solventi. Assorbire immediatamente con un panno asciutto e pulito eventuali liquidi rovesciati.

IL CUOIO – SCAB Design utilizza per le sedute imbottite solo cuoio naturale a concia vegetale. **Per la pulizia** quotidiana utilizzare un panno morbido asciutto. Per lo sporco più ostinato utilizzare un panno morbido inumidito con acqua. Non impiegare prodotti abrasivi né detersivi o solventi.

STABILIMENTI SCAB 85.000 m² DI PRODUZIONE MADE IN ITALY

La nostra garanzia di qualità è la nostra capacità produttiva: con un parco macchine di **30 presse** robotizzate realizziamo internamente tutti i nostri prodotti in policarbonato, polipropilene e polimeri.

Quantità delle presse per lo stampaggio, modernità delle attrezzature, realizzazione interna di tutte le fasi produttive e vastità dei magazzini trasmettono la serietà di una azienda realmente produttrice.

Professionalità e 60 anni di esperienza garantiscono qualità made in Italy.
Alle parole Scab Design preferisce i fatti e queste immagini evidenziano il nostro spirito.
